

DIGIT 75 WHITE GLOSS – PERMANENT

DIGIT
75

Polymeric PVC Film with a clear or grey solvent-based acrylic adhesive, laminated on a two-sided PE-coated silicone paper liner. The PVC offers excellent dimensional stability and the grey-coloured adhesive ensures very good opacity.

FEATURES

- Use on flat and slightly curved surfaces
- Short to mid-term, indoor & outdoor
- Wet or dry application

APPLICATIONS

- Window graphics
- Point of Sale
- Real Estate / Billboards
